

--11. (New) A connector according to claim 2, wherein means are provided to prevent each contact holder from being blown out of the associated connector element.--

--12. (New) A connector according to claim 11, wherein the preventing means comprises a pin received in a slot formed in the contact holder.--

REMARKS

The foregoing claims are intended to comply with title 35 United States Code, and particularly § 112, second paragraph. It is submitted that no new matter has been entered and therefore this application is entitled to priority under 35 U.S.C. § 119.

Respectfully submitted,

John F. Luman III, Reg. No. 43,763
